

# Map Coordinates

## South America

# Map Coordinates

## Monday

1. Name the imaginary lines that run around the Earth in an east-west direction.

\_\_\_\_\_

2. Name the imaginary lines that run around the Earth from the north to the south.

\_\_\_\_\_

## Tuesday

1. What does the word *coordinates* mean?

\_\_\_\_\_  
\_\_\_\_\_

2. To find the coordinates, do you look at the lines of latitude or the lines of longitude first?

\_\_\_\_\_

## Wednesday

1. Estimate the coordinates for Brasília, Brazil.

\_\_\_\_\_

2. Which other capital is located about the same latitude as Brasília?

\_\_\_\_\_

# Map Coordinates

## Thursday

1. Estimate the line of longitude for Georgetown, Guyana. Name another capital on nearly the same longitude line.

\_\_\_\_\_

2. Estimate the geographic address for Bogotá, Colombia.

\_\_\_\_\_

## Friday

1. Which capital is closest to the equator? Estimate its geographic address.

\_\_\_\_\_

2. Which capital is located at 34°S, 71°W?

\_\_\_\_\_

## Challenge

On the map, color each country in South America using a different color. Be sure to color the country whose capital has an address of 15°S, 48°W red.
